DIRECTORATE FOR WELFARE OF THE DIFFERENTLY ABLED PERSONS GOVERNMENT OF TAMIL NADU RIGHTS Project: Inclusion, Accessibility & Opportunities for the Differently Abled in Tamil Nadu TERMS OF REFERENCE FOR ENGAGEMENT OF Block Coordinator				
1.	BASIC	DETAILS		
	Duty Station		:	Allotted Block
	No of Engagements			Tenkasi – 12, Chennai - 6
	Languag	e	:	English & Tamil
	Required	l/preferred		
	Duration of Contract		:	12 months (Renewable subject to performance)
	Reportin	g Officer	:	Sub Division OSC - Centre Manager
2.	BACKG	ROUND		
	i.	As per the Census	(20	11), Tamil Nadu is the sixth most populous state in India with a
		population of 72 mi	llic	on, which includes the proportion (1.63 percent) of persons with
		disabilities compare	d to	o national average of 2.21 percent. A study that used pooled data
		from the District Le	evel	Household Survey-4 (2012-13) and Annual Health Survey 2nd
		updating round (201	121	3) reveals that there are 4550 persons with disabilities amongst
		every 100,000 popul	lati	on in Tamil Nadu thereby indicating a much higher prevalence of
		disability in compari	isor	n to the census data. Therefore, if one goes by the estimates of this
		recent study, there w	vot	Ild be about 3.2 million people in Tamil Nadu living with some
		form of disabilities.	Mo	reover, even these estimations appear on the lower side especially
		since the definition	anc	type of disabilities has undergone a change to include a larger
		population group sir	nce	the promulgation of Rights of Persons with
		Disabilities Act, 201	6	

ii.	Persons with disabilities face multiple socio-economic constraints including poorer
	health outcomes, lower education levels, limited economic participation, and higher rates
	of poverty compared to persons without disabilities. They often experience exclusion and
	barriers in accessing health services, education, employment, transportation, information
	as well as care and rehabilitation services. Furthermore, households with a disabled
	member are more likely to experience material hardships- including food insecurity,
	poor housing, lack of access to safe water and sanitation, and inadequate access to
	healthcare. Thus, these limitations and barriers not only hinder their full and effective
	participation in the society, but also affect the country's productive potential, the human
	capital. In order to increase the human capital and reduce the achievement gap among
	people with disabilities, a coordinated and comprehensive package of interventions
	appears warranted for addressing the individual and community contexts at both,
	multiple and systemic levels.
iii.	Tamil Nadu has always been a pioneer in the implementation of welfare schemes for all
	sections of socially disadvantaged groups. The Department for the Welfare of the
	Differently Abled (DWDAP), through its various initiatives and schemes have extended
	full support to the differently abled people in their pursuit of full and equal involvement
	in every aspect of society. The DWDAP is largely responsible for all administrative,
	statutory and service delivery functions, which is implemented through its well-
	experienced workforce at the state, district and local levels. The thrust areas of the
	DWDAP are prevention and early interventions, special education, employment &
	vocational training, social security (maintenance allowance, travel concession, assistance
	to NGOs), aids & appliances, and barrier free structure. Recently, DWDAP conducted a
	pilot project in a few blocks of the state and has identified a need for multi-sectoral,
	whole-government, and capacity building approach to care and rehabilitation of the
	differently abled.
iv.	The RIGHTS Project focuses on three pillars: first, promote inclusion of all by ensuring
	that persons with disabilities participate equally with others in any activity and service
	intended for the general public, such as education, health, employment, and social
	services; second, improve the access of specialized programs by investing in specific
	measures for quality care, rehabilitation and support services; and third, provide
	opportunities for persons with disabilities for completion of education, skills training and
	market-linked employment opportunities. However, to manage the project at the

	proposed scale, substantial efforts would be required to build the current institutional
	capacity of the DWDAP at all levels in terms of field units for administration, service
	delivery, supervision and monitoring, along with self-sustaining capacity

v.	The Project would be managed through the Directorate for Welfare of the Differently
	Abled (DWDA), led by the Project Director (PD) RIGHTS project cum Director
	DWDA, hereinafter also referred as PD, and would have a team of consultants. District
	Project Implementation Unit in each district will oversee the activities in district level,
	headed by District Differently Abled Welfare Officer (DDAWO) and would have a
	team of District Project Officers. In Sub Division Level there will be Sub Division One
	Stop Social Care Service Centres (OSC) headed by Sub Division Officer for Differently
	Abled.
	The Family and Community Based Care and Rehabilitation services will be delivered
	through the Community Based Rehabilitation (CBR) to improve access and quality care
	and rehabilitation services for DAPs. CBR is a community development strategy that
	aims to enhance the quality of life for DAPs/ their families and ensure their inclusion
	and participation in the community. This will include individual-centric planning with
	the support of family and community, a grass-roots approach providing care and
	services, mobilizing local capacity and resources, and building on community strengths
	and structures with the primary purpose of making comprehensive care and services
	closer to the extent possible to DAPs and their parents/care givers.
	To provide the proposed above CBR activities of family and community-based care
	and rehabilitation services at, TN RIGHTS intends to engage a qualified and
	experienced organization/firm, called a "Community Service Provider (CSP)"
	TN RIGHTS, through Community Service Providers will establish block level centre
	in each block, Municipality, and corporation zones and Neighbourhood centres within
	the block, engage the required staff (Block level and Neighbourhood level) and provide
	community level services through frontline workers.
vi.	To ensure effective implementation and supervision of the RIGTHS Project at the
	Block levels, the DWDA is planning to engage a Block Coordinator for each Block.
